Programming & Databases: Python, C, R, MySQL, PL/SQL, Oracle, Database Operations (CRUD)
Development & API Tools: GitHub, Postman, Visual Studio Code
Digital communications & Content : Constant Contact, Canva, Niche Academy
Creative & Media Software: Procreate, Affinity, xTool Studio, Fusion 360, Logic Pro, Final Cut Pro, OBS Studio

EXPERIENCE

MakerStudio Specialist
Hussey-Mayfield Memorial Public Library | Feb 2024 – Present

- Compose, target, and distribute digital MakerStudio newsletters and promotional communications through Constant Contact to engage community members and promote programs.
- Design promotional flyers, graphics, and instructional materials using Canva to communicate workshop information and support technology initiatives.
- Develop digital tutorials using Niche Academy to help patrons learn MakerStudio equipment, software, and procedures.
- Helped plan and configure an audio recording setup and independently planned and began implementing an integrated video and audio recording workflow using OBS Studio, Logic Pro, and Final Cut Pro.
- Provide technical support and troubleshooting for specialized equipment, creative software, and technology projects; cross-train coworkers on MakerStudio equipment and operational procedures.
- Independently oversee MakerStudio operations, including program coordination, equipment management, inventory, supplies, troubleshooting, and patron services.
- Organize and deliver STEM programs, including robotics and block-based programming workshops for children.

Interpreter
CyraCom International Inc. & Luna Language Services | Jun 2018 – Nov 2023

- Communicated complex information accurately between English, Nepali, and Hindi speakers across healthcare, education, community, emergency, immigration, and professional settings.
- Adapted communication to different audiences while maintaining accuracy, professionalism, confidentiality, and cultural awareness.
- Delivered telephone, remote/video, and in-person interpretation requiring active listening, clarity, composure, and attention to detail.

Computer Assistant
Indianapolis Public Library | Oct 2021 – Feb 2022

- Assisted patrons with computer, software, and technology troubleshooting and helped them navigate library technology and services.
- Supported patrons with job searches, resume writing, and other computer-based tasks.

WEB DEVELOPMENT AND TECHNICAL PROJECTS

Personal Portfolio Website – HTML, CSS, PHP

- Developed a personal portfolio website using HTML, CSS, and PHP to showcase projects and professional work.
- Registered a domain name, configured paid web hosting, and published the website online.

Indiana State Science Fair Web Application – PHP

- Collaborated on a web-based grading application with separate judge and student roles, enabling judges to rank student science fair projects.
- Developed and hosted the application on a local server and conducted end-to-end testing to evaluate application functionality.

Movie Rental System – Database Management Project

- Developed a movie rental website that allowed customers to browse movie catalogs and rent movies based on availability.
- Implemented create, read, update, and delete (CRUD) operations to manage the movie catalog.
- Hosted the application on a local server and performed unit and regression testing to evaluate functionality and reliability.

Client-Side Programming – Website Development Project

- Developed a website as part of client-side programming coursework, incorporating JavaScript exercises and assignments into a single project.
- Applied HTML, CSS, and JavaScript to build web pages and practice client-side programming concepts.

DarkSearch API Testing Project

- Used Postman to make API requests and inspect responses in JSON format.
- Imported CSV files containing request data and saved JSON responses for further review.

EDUCATION

Purdue University — Indianapolis, IN
Bachelor of Science in Computer Science, Minor in Mathematics | Dec 2021
GPA: 3.6
